color

Personalized cancer screenings and care that comes to you.

For people navigating routine screenings, an active diagnosis, and life after cancer.

Cancer Prevention

- **Personalized care**, including a screening plan that adapts as your needs, health, and lifestyle changes.
- **Genetic testing** for those who qualify to understand your cancer risk and adjust your screening plan if needed.
- **A team of doctors, nurses, and specialists** you can speak to at any time to go over concerns or changes.

Treatment Support and Guidance

- **Ongoing personalized medical guidance, second opinions, clinical trial guidance,** and access to Color's expert medical network, making sure nothing in your treatment plan is ever missed.
- **24/7 symptom management and triage** through Color's nurse hotline that can help answer questions and write prescriptions to alleviate nausea, pain, and other side effects.
- **Personalized support for nutrition, movement, and daily routines** for finding foods and meal plans that work for you and building back strength.
- **Peer support groups to connect with others** who have lived through similar experiences and coaches trained in the emotional impact of treatment.
- **Insurance navigation, billing review, cost clarity, and return to work planning.**

Access starts in 2027

This benefit is available to employees and dependents 18+ enrolled in a Warren Equipment medical plan

Screening for Cancer

Unless at a high risk, it is recommended to screen for cervical cancer starting between 21-25, breast cancer starting at 40, colon cancer starting at 45, and prostate cancer starting at 50 years of age.

- **At-home colon, cervical, and prostate cancer screening kits** with quick results.
- **At-home skin cancer screening** to review concerning moles and get help with a dermatologist if needed.
- **Help booking in-person appointments** like mammograms, colonoscopies, and more. Color's care advocates can find in-network, close-by options, and can even schedule appointments on your behalf.

Survivorship Care

- **Visits with survivorship oncologists and nurses** anytime you want to review test results and receive second opinions, discuss new screening schedules, get help managing lingering pain or neuropathy, and gain clarity on the recovery journey.
- **Color's help untangling insurance and medical bills,** including disputing bills and claims, and working directly with insurance so you don't have to interpret billing codes or wait on hold.
- **Peer support groups to connect with others** who have lived through similar experiences and coaches trained in the emotional impact of survivorship.
- **Return-to-work planning and accommodation** guidance, fatigue management, and 24/7 symptom support.

Resources for Those Supporting Someone with Cancer

- Color provides logistical support (like scheduling appointments), clinical support to help folks understand their loved one's illness, and peer-led support groups designed specifically for those caring for others.
